EDUCATION

Kookmin University, Seoul, Republic of Korea

Mar 2021 – Feb 2027 (Expected)

Bachelor of Science in Computer Science

- GPA: 3.95 / 4.50

RESEARCH INTERESTS

Object Detection, Multi-Object Tracking, 3D Perception, Segmentation, Multimodal Learning, Vision-Language Models

RESEARCH EXPERIENCE

Dutt Research Group, University of California, Irvine

April 2026 – August 2026

Visiting Undergraduate Researcher | Advisor: Prof. Nikil Dutt

- Developing efficient vision-language reasoning systems for multi-UAV perception under resource constraints
- Selected for the KMU–UCI Summer GREAT Program for collaborative research at UC Irvine

HCI Lab, Kookmin University

June 2025 – Current

Undergraduate Researcher | Advisor: Prof. Sangmin Yoon

- Developing video perception methods for 2D/3D object tracking and multimodal learning
- Research further supported by the SW & AI Research Program (UROP) at Kookmin University across three consecutive cohorts: Fall 2025, Winter 2025–26, Spring 2026

PUBLICATIONS

Minwoo Kim, Sangmin Yoon. *Memory as Dynamics: Learning Reliability-Guided Predictive Models for Online Video Perception*. International Conference on Machine Learning (ICML), 2026.

Minwoo Kim, Sangmin Yoon. *SPARTA : Tracking by Selectivity with Policy-Gated Masks and Cross-Temporal Alignment*. International Journal of Computer Vision (under review at IJCV), 2026.

HONORS & AWARDS

Honors / SW-Centered University Cohort Class Helper Fellowship 2026

Honors / SW-Centered University Research Excellence Fellowship 2025

Honors / SW-Centered University Academic Merit Scholarship 2025

Honors / Winter Research Laboratory Internship Fellowship 2025

Honors / SW-Centered University Cohort Class Helper Fellowship 2025

TALKS & PRESENTATIONS

Memory as Dynamics: Learning Reliability-Guided Predictive Models for Online Video Perception, ICML 2026, July 2026.

PERSONAL PROJECT

Quantum Annealing-Based Optimization for CNN Tracking Models *Feb 2026 – Jun 2026*

- Formulated CNN channel pruning as a QUBO problem for quantum annealing-based optimization in visual tracking

Recipe Recommendation Service Based on User Preferences *Mar 2025 – Jun 2025*

- Developed a personalized recipe recommendation service with API-based metadata processing

TEACHING & LEADERSHIP

AI Programming Cohort Support Program, Kookmin University Mar. 2026 – Present

Class Helper, AI Basic Programming

Undergraduate Research Seminar Program, Kookmin University Sep. 2025 – Present

Seminar Leader, Computer Vision & Deep Learning

Computer Programming Cohort Support Program, Kookmin University Mar. 2025 – Jun. 2025

Class Helper, Computer Programming

SKILLS

Programming: Python, C/C++, *others*

ML / DL Frameworks: PyTorch, *others*

Languages: Korean (native), English (*level, e.g., TOEFL 105*)
